STRONG PLEAS MADE FOR BOY SCOUT WORK

Regional Scout Executive Advances Argument for Revival of Scout Organization in Grenada—School Superintendent Adds Plea.

Saying that work of and with boy scouts revealed much of wit, pathos and humor, Harold W. Lewman, of Memphis, regional scout executive, made a strong argument before the Grenada Rotary Club Tuesday for the revival of the boy scout organization in Grenada. Mr. Lewman, who has had considerable experience in his contacts with youths, showed that he was thoroughly familiar with his subject and he related numerous incidents to show the need of such work among boys and of such influence as would result from their scout membership. He mentioned the recent scout jamboree held in England which was attended by 15,000 scouts from 42 nations of the world and he said that such events as this from time to time would result in a youthful league of nations.

Mr. Lewman was followed by Prof. John Rundle, superintendent of city schools, who made an earnest plea for Rotarians to lend their aid and support to the boys and he pointed out the need for a scout organization by telling of several incidents that had happened recently in the schools which, he thought, would not have happened had these boys been boy scouts.

Prior to the club luncheon a meeting was held to lay plans to secure a scoutmaster here and to interest the youths of Grenada once more in scouting.

Guests at the luncheon were, besides Mr. Lewman, Rube Gibson, of Pine Blufff, J. H. Caldwell, of Charleston, and E. L. Atkinson and Rev. J. H. Boosey, of Grenada.

AUDITOR ISSUES STATEMENT STATE'S FINANCIAL STATUS

State Auditor, Carl C. White, has issued his regular monthly statement showing the financial transactions of his office for October, 1929.

Taking first the General Fund, the statement shows a balance on hand October 1, 1929 of $257,338.60. Transfer from Confederate Pension Fund as authorized by Chapter 85, Laws of 1928 Extra Session of $86,390.01, and collections for the month of $522,346.87, and sale of short term notes in the amount of $500,000.00 gave a total balance and receipts for the month of $1,346,075.48.

The General Fund disbursement for October amounted to a total of $1,520,688.74, leaving an Auditor's overdraft of $174,613.26 on November 1, 1929. He adds a note that the Confederate Pension Fund owes the General Fund $1,408,890.49 and has a balance of $347,256.25 locked up in special funds under Chapter 85, Laws of 1928 Extra Session. The amount of this balance would cover the General Fund overdraft and leave a balance of $172,642.99. Receipts to the General Fund on November 1, 1929 amounted to $142,250.92.

The largest receipts into this fund during October were income taxes of $251,221.33, and privilege taxes of $126,458.75 and short term notes sold $500,000.00. The largest items of disbursement were $954,396.75 to common schools and $362,971.92 for payrolls for colleges and hospitals, while interest on bonds paid amounted to $147,486.87.

In the special funds October 1, 1929, there was a balance of $3,662,035.46, or after deducting the transfer from the Pension Fund under Chapter 85, Laws of 1928 Extra Session of $86,390.01 a net balance of $3,575,645.45. Special fund receipts for October amounted to $1,109,025.29 and total disbursements to $1,855,690.55 leaving a balance in all special funds on November 1, 1929 of $2,828,980.19.

The largest item of receipts into the special funds during October was $681,303.21 in gasoline tax. The largest disbursement from these funds were $389,103.27 from Building Funds, $347,246.00 to Confederate pensioners, and the distribution of the gasoline tax to counties and the State Highway Department.

MADE ASSISTANT EDITOR

Atlanta, Nov. 6.—A Grenada boy, Jeff Cunningham, has been appointed one of the assistant editors of the Emory Wheel, college newspaper of Emory University in Atlanta, Ga. where he is attending school. He has just entered the theological school at Emory, after doing undergraduate work at Birmingham Southern College and the University of Mississippi. He is a member of the Pi Kappa Alpha fraternity. He is the son of Rev. and Mrs. E. H. Cunningham, of Grenada.

If women had any sense there would be more bachelors.

NEGRO BOYS ARRESTED FOR THEFT OF $151 FROM SAFE

Will Aven Jones, 12, and Will Loving, 16, negroes, were placed under arrest Monday by J. D. Crenshaw, city marshal, on the charge of stealing $151 Saturday from the safe in Dyre-Kent Drug Co. The money belonged to Grenada Theatre and had been in the safe but a few minutes before it was taken. The manager of the theatre has been in the habit of leaving his receipts every night with Dyre-Kent for safekeeping and he followed the usual custom Saturday night. The money was placed inside the safe but the safe door was left unlocked.

It seems that the younger of the two negroes was employed at the drug store but did not work Friday or Saturday and that the other negro, his cousin, substituted for him. According to confessions reported made to officers by the two, they planned all day Saturday to steal the money. The older negro, it is said, took the money from the safe and passed it to the other who was waiting at the rear of the store.

The loss was not discovered until Monday morning and the culprits were quickly located. By Tuesday evening all the money had been recovered.

The negroes were tried before Mayor W. S. P. Doty Wednesday and, with the mother of each who were charged with being accessories after the fact, were held for action of the grand jury.

Economics Agent To Serve During 1930

Supervisors Vote to Employ Home Demonstration Agent at Salary $300 Less than Paid Formerly—Employment to Begin January 1.

The board of supervisors, at its meeting Monday, authorized the employment for 1930 of a county home economics agent at a salary of $1500 annually, three hundred dollars less than the salary paid before it was voted to reduce the salary at the beginning of this year. The agent's employment is to begin on Jan. 1st, her selection to be determined upon the recommendation of Miss Kate Lea, district supervisor of home economics, subject to approval by the board of supervisors.

To the salary paid by the county will be added one thousand dollars annually contributed by the federal government.

GAME WARDEN AUTHORIZED TO PLANT FOOD FOR DUCKS

R. E. Hall, county game warden, has been given authority by the board of supervisors to expend an amount from the county game funds not exceeding $150 in the purchase of grains to be planted in suitable places for the purpose of attracting wild ducks to the county during hunting season. This action of the board meets with the hearty approval of Grenada county lovers of duck hunting for devotees of this sport have not found the shooting so good in recent years on account of the scarcity of feeding grounds for these migratory fowls.

With the proper cooperation upon the part of the public, the actions of the supervisors and the game officials in recent months mean that Grenada countians will have plenty of good shooting ere long.

CHANCERY COURT ADJOURNS

Chancery court, which opened its session here Monday morning with Judge N. R. Sledge, of Senatobia, presiding, finished its labors Wednesday afternoon after disposing of practically the entire docket of cases, including divorce suits and other litigation. Judge Sledge knows how to keep the wheels of the court moving with dispatch and there is very little lost motion in his court.

Some neighbors will borrow everything, including trouble.

$90,000,000 Wanted For Road Program

Legislative Committee Believes Ten Year Highway Program Can Be Mapped Out without Bond Issues. Raise Gas and Auto Taxes.

Jackson, Miss., Nov. 6.—A road road program providing for the expenditure of $90,000,000 over a 10-year period for hard surfacing state highways, without the issuance of long term bonds, will be presented to members of the Mississippi Legislature by the Stansel House road committee within the next 30 days.

The committee met in Memphis Monday night, and on the following morning they began an automobile journey to Washington and return, to be gone about two weeks. Representative Horace S. Stansel of Sunflower County, chairman of the group, and Representatives L. L. Posey of Hinds, John C. Satterfield of Claiborne and C. D. S. Bragg of Lowndes will make up the party. Rep. Arthur V. Smith of Jackson, the fifth member, remaining back in Mississippi to carry on certain research work.

While in Washington the committee will present the data collected by it during the past nine months to the bureau of public roads of the Department of Agriculture and will seek the "expert" assistance of the federal body in the framing of a highway paving bill for presentation to members of the Legislature.

The journey will carry the committee men through a number of southern states, having problems similar to those confronting Mississippi and first hand information will be sought in those states as a further guide for the law-makers.

An increase of one cent a gallon in the excise tax, bringing the total to six cents a gallon, is one of the resolutions to be made by the committee in putting forth its fiscal program. A boost of around 50 per cent in the automobile privilege tax will be another means of increasing the funds available for road construction.

The committee has not formally adopted its program and has made no official statement concerning its resolutions. This will not come until the program is ready for deliberation among the law-makers.

It is known, however, that the members believe they can show their colleagues how an average of $9,000,000 annually can be raised for road construction and paving, without the sale of bonds and, more marvelous than that, minus any howls by the tax payers at the increase in taxes on motorists.

This belief of the committee has been strengthened immeasurably since the series of public meetings they have conducted in communities scattered throughout the state, at which expressions of the people back home were freely solicited and as freely expressed. The people endorsed the raise in gasoline and privilege taxes, it is reported.

The present gasoline excise tax is five cents, of which tax three cents goes into county treasuries and two cents into the state highway department for maintenance. February 1, 1931, the present law provides that one cent shall be taken off of that sent to the counties and placed in the state fund.

Imposition of another cent a gallon on this state tax to be paid into the state highway department would increase the amount to four cents a gallon. The ratio between the gasoline tax and the automobile tax is about one to two, or one cent gasoline tax equals two cents now paid in privilege taxes.

The committee it is understood will recommend an increase of 50 per cent in the privilege tax to go, like it now does, entirely into county treasuries. Offsetting this increase would be the taking away from the counties one cent of its gasoline tax and placing it to the credit of the state highway department.

When this is done, the counties will be obtaining the equivalent of four cents a gallon gasoline tax and the state highway department the equivalent of five cents a gallon gasoline tax, to be used in construction and maintenance both by the counties ad the state.

The "pay-as-you-go" policy to be outlined by the Stansel committee will clash with the administration's program providing for a "pay-as-you-ride" policy, meaning a bond issue. It will remain for the legislature and Governor Bilbo to reconcile their differences on this vital issue.

Administrationists have contended that a "pay-as-you-go" plan would not raise that much money, and it will be the task of the Stansel committee to come forward with convincing data to show that the money can be raised.

Little or nothing is being said by the Stansel committee about the other highly controversial issue which has been at the forefront in all road legislation, and that is the re-organization of the state highway department. This issue must be faced again in January.

A majority of the legislature, as shown in the passage of the Wright highway bill at the second extraordinary session, but vetoed by the governor, went on record as favoring the retention of the present highway commission of eight, at least until the expiration of its present tenure of office. This is in January, 1933, it having come into office one year later than the administration.

There is a strong sentiment in the Legislature however, favoring the reduction of the commission to a body of three members. The main road bill fight heretofore has been over whether the commission should reduce, and if so, whether the members should be appointed by the chief executive or elected at the polls.

Just what recommendations along this line will be made by the Stansel road committee remains to be seen, and its resolution is eagerly awaited because most people believe that the real fight around road legislation again will be centered about the organization of highway department.

The best way to find your missing kinsfolk is to get rich.

DR. YOUNG GRATEFUL FOR BIRTHDAY REMEMBRANCE

Editor Sentinel:

I wish to say something of the birthday dinner given in my honor last Monday evening through the kindness and generosity of Dr. Sharp and his lovely [illegible].

If tendered to the [illegible]dent of the United States, [illegible]uld not have been surpassed. T[illegible]anquet board was beautiful to [illegible]upon, the dinner par excellenc[illegible]d the service perfect. The gra[illegible] hostess going here and t[illegible] and everywhere adding to t[illegible]easure of her guests, was gi[illegible]sly assisted by Mrs. B. S. Duc[illegible]nd Miss Dunavant.

I being the honoree, the [illegible]rs and other guests paid me so[illegible]y compliments and said such b[illegible]ful things about me that I completely overwhelmed and [illegible] scarcely give utterance to promptings of my heart. The doctors surprised me by presenting me with a fine meerschaum pipe. I was the recipient of lovely handkerchiefs, cigars, and other gifts; and congratulatory cards and letters filled with expressions of love and good wishes were read from other gentlemen and lady friends.

We had a most royal time and all due to the magnanimity and generosity of Dr. and Mrs. Sharp.

During my remaining days on earth, I shall remember this occasion with love and gratitude, as being one of the brightest episodes in my long life.

To add to the joy of the occasion, the lovely daughter of the home and several other pretty young lassies were present, and contributed much to the beauty of the ensemble. At the conclusion of the banquet Mrs. Sharp brought in a large beautiful cake decorated with 83 lighted candles, and a Confederate flag done in red, white and blue icing. Reminded of the long ago, I could not refrain from saluting that flag once more.

I cannot conclude this note without extending my warmest thanks and appreciation to friends in town and country, both white and colored who have added so much to my pleasure by sending me so many good things to eat—wild game, fish, fruit and vegetables, and to friends who have brought and sent flowers in the last three years which if spread out, would cover an acre of ground.

My time on earth is fast coming to an end. I wish all friends happiness and prosperity while on earth, and when I pass away and enter the Promised Land, as they one by one pass away, I shall lean over the battlements of Heaven and beckon to each one to "come up higher" and with me walk the "Golden Streets of the New Jerusalem", and "See Him Face to Face", and mingle with all the loved ones gone before.

Sincerely and lovingly,
J. W. YOUNG.

P. S. This should have appeared last week, but I felt unwell and put off from day to day writing it.

GEO. W. BOUSHE DIES

Mr. Boushe, who was born in Grenada county, up to the time of his death, still called Grenada his home although he had not resided here for many years. He was a member of a fine family, a splendid citizen and was an upright Christian gentleman.

Besides his wife and two children, he is survived by two brothers, one of whom is W. E. Boushe, of Grenada. To all of these The Sentinel tenders sympathy.

Committeeman Gives Indebtedness Facts

Mississippi's Public Debt Is Startling, According to Figures Compiled by Member Highway Committee—Huge Sums Paid in Interest.

The following figures, compiled by John C. Satterfield, secretary of the legislative highway committee, give facts as to Mississippi's indebtedness for taxpayers to ponder over:

It would take the salaries of 6,733 clerks receiving one hundred dollars per month to pay the interest on the total public indebtedness of Mississippi.

Calculated on the basis of an average of five and one-half per cent interest upon the total county, municipal and state bonds now outstanding, the sum of $8,080,797.10 is paid every year by the taxpayers of Mississippi as interest on the public debt. This arbitrary interest figure is considered conservative by taxing officials, as many consolidated school district, road district and municipal bonds are issued at a much higher rate of interest.

Each day that passes there is taken from the tax payers' money $22,139.17 to pay interest on the total public debt. Every time that Mississippians pass an hour at work or play $922.46 has been eaten up in interest alone.

The total bill for interest submitted at the end of each week is $154,974.19 and the interest bill for each month, calculated on the basis of 12 months per year, is $673,399.75.

The total public bonded indebtedness now outstanding against the property in Mississippi is $146,923,584.07 according to the latest compilation. This includes state, county, taxing district and municipal bonds and the $4,000,000 state short term notes issued for current expenses at the last extraordinary session of the legislature.

Of this total bond issue $68,346,304 represents bonds issued by the counties and road districts for highway purposes, and $49,968,530.07 represents bonds issued for other purposes. The total bonded indebtedness of the counties, municipalities and districts, therefore, is $118,314,834.07.

The state bonded indebtedness now is $24,608,750 plus short term notes in the sum of $4,000,000 which brings the total state indebtedness to $24,608,750.

When a farmer or business man contemplates floating a second mortgage on his property he and the banker take into consideration the amount of indebtedness already outstanding under the first mortgage on the property. This is then compared to the value of the property to see if such loan should be made. The prospective borrower will also calculate the amount of interest that he is paying to see if he could afford to add a greater burden.

Any state in deciding the amount of bonds to be issued for any purpose, or whether or not any bonds shall be issued at all, must take into consideration the indebtedness then outstanding against the property of the state. This would include state, county and municipal bonds for all of which have been issued against property in the state. The same taxpayers that pay the interest on county and municipal bonds also pay the interest on state bonds.

The assessed valuation of Mississippi in 1928 was $775,716,077. With the total bonded indebtedness given above our state today has already spent in the form of bonds nearly 19% or practically one-fifth of the total assessed value of the property within the state.

These facts must be considered as a material element in deciding what is best for Mississippi with reference to the issuing of bonds for highway construction or any other purpose.

REDUCTION IS MADE IN NEW TAX LEVIES

Lower Taxes to Be Paid in Ten of Fourteen Taxing Districts of County—Supervisors Deserve Commendation for Wise Management.

The taxpayers of ten of the fourteen taxing districts in Grenada county will be more than gratified to know that they will have to pay this year less taxes than they paid last year, according to the levies made by the board of supervisors at its meeting Monday. The reductions in the ten districts vary, ranging all the way from one-half to seven mills. In the four districts that must pay increased taxes of from 1½ to 7½ mills, 3½ mills of the raise may be accounted for by the increase in the school levy voted on themselves recently by the people.

The supervisors are to be commended for the attention they have given to the county's business for without diligence and care in the exercise of their functions, no tax reduction could have been expected. It is seldom one hears of taxes being reduced. To the contrary, the howl is constantly heard of increasing tax rates and, in the great majority of cases, the howl is a justifiable one. Careless, slipshod methods on the part of Grenada county supervisors would have resulted in the same or higher taxes and the fact that reductions have been made gives evidence to the excellence of their judgment and business sagacity in the conduct of county affairs.

The levies made Monday by the board and how they compare with last year are as follows:

Taxing District	Mills Levied 1928	1929
City of Grenada	35	31
Beat 1	36½	36
Beat 2	31	38½
Beat 3	39½	41

ARMISTICE DAY—ELEVEN YEARS OF PEACE.

Next Monday will mark the eleventh anniversary of that memorable day when the warring nations of the world signified their willingness to lay down their arms and to cease hostilities against other nations. To some Nov. 11th will bring tears of sadness when they recall the noble son, brother or father who laid down his life for his country. To others will come thoughts of joy that their loved one in the service was spared from the ravages of war. All should breathe a prayer to the Almighty that we have enjoyed eleven years of peace on earth and good will toward men and should pray that the world shall never again witness such strife.

In the rush and hurry of these past eleven years many of us have forgotten or seem to have forgotten the loud acclaims and the wild huzzahs with which we greeted "our boys" when they returned from the battle-fronts and from the cantonments over the country and of the great things that would be done for "our heroes" when they returned home. Pause for a moment and ask yourself have you given the ex-service man an even break—that's all he asks and he does not expect that "preference" which was to be given him. Recall, if you please, the days of 1917 and 1918 and ask yourself if you have given him a square deal.

Armistice Day may bring these things to our minds but we should remember them constantly. We are a forgetful people and it is well occasionally that we have such days when we may bring back to mind the promises and the resolutions of yesteryear.

A "BUSTED" BISHOP

The Virginia state election held Tuesday reveals a "busted" bishop in the person of James Cannon, Jr. He jumped into the political fray with both feet. He demanded certain things of the Democratic organization with the threat that if his demands were not acceded to, he would join forces with Republicans and defeat the Democrats. His demands were refused and he made good his threat as to joining in fighting the Democrats. His slogan was, "Down with Raskobism and the voice of the Pope". The Democratic slogan was, "Down with Cannonism". The Democrats won. The Bishop could not deliver his own voting precinct which went nearly 8 to 1 against him. He was buried politically.

The Virginia election once again demonstrates that the American voter refuses to be led by ecclesiasticism. It shows that the political parson who sticks his nose into politics comes out with a bad smeller.

There is a sad feature to Bishop Cannon's political venture. And that is that he has dragged in the mire the sacred vestments of a bishop. He has given his church a black eye and has beyond question placed himself where thousands of loyal Methodists will rebel at his leadership.

What sort of harmony could one expect in a Virginia annual conference over which Bishop Cannon presided?

The Bishop needs to repent in sackcloth and ashes.

We congratulate the Old Dominion. Indeed the political burial of Bishop Cannon furnishes a salutary lesson for the whole country. Peace to his political ashes. May his political breed cease.

JUST A PEEP IN ON DELEGATES.

The laymen in attendance at the North Mississippi Methodist conference at Corinth last week evidently intended that no layman should be chosen a delegate to the general conference next year who does not believe in holding Bishop James Cannon to a strict account for his political meddling, bucket shop dealings and some other things regarded by many as reflecting on the church and the high office of a bishop.

If we were counsel for the state and the laymen chosen were put up to us, our answer would be, "the state accepts the jurors or delegates". We have reason to know that three of the laymen hold views as to Bishop Cannon similar to what The Sentinel has repeatedly stated. We are told that the other delegate is equally uncompromising on this particular matter.

We happen to know, also, that one of the lay delegates chosen had in his pocket some resolutions which carried a drastic indictment of the war-like Bishop. We presume that this delegate found things sitting so pretty that he did not think resolutions necessary.

And, by the way, if Bishop Cannon had any sponsors among the clergy at the conference, they seem to have played a poor hand when it came to electing clerical delegates.

PLAN APPEARS FEASIBLE.

One who drives over our gravelled roads to any great extent will give hearty approval to any reasonable measure that will give Mississippi hard-surfaced roads. The ninety-million dollar road program, to be spread out over a period of ten years without long time bond issues, appears feasible according to plans advanced by the legislative highway committee. The gentlemen composing this committee have been giving a great deal of study to the road question and their suggestions should be given the most careful consideration by the legislators.

A soft answer doesn't turn away as much wrath as a hard look.

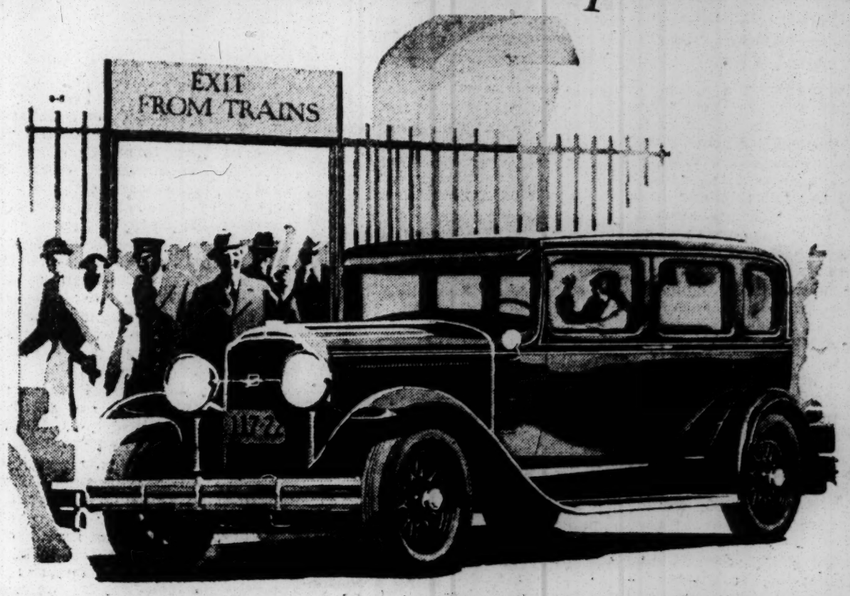
QUALITY *so fine that half the world doesn't realize that Buick is priced so low!*



It is an impressive fact that men and women are buying from two to five times as many new Buicks as any other car priced above $1200.

Moreover, during August and September, Buick monopolized its market to such a degree that it won 41% of the total sales of the 15 makes of cars in its price class.

And yet this marked preference for Buick would be still greater if *all* motorists realized that they can buy six of the fourteen luxurious Buick body types for less than $1300, f. o. b. factory.

These are Buicks through and through, embodying the full array of Buick quality features: Buick's new and surpassingly beautiful Bodies by Fisher; the famous Buick Valve-in-Head engine—most powerful engine of its size in the world; Buick's new Controlled Servo Enclosed Mechanical Brakes; the new Buick steering gear; new Road Shock Eliminator; and Buick's new, longer rear springs with Lovejoy Duodraulic Shock Absorbers.

The new Buick, with these features, will introduce you to new and unequaled performance, driving ease, riding comfort and reliability on any day you put it to the test. And yet these six Buick models are offered at the price of cars which motorists never think of comparing with Buick!

Visit our showroom. Bring your present car. Learn how easily you can obtain one of these new Buicks. All are available on the extremely liberal General Motors time payment plan.

In addition to these lower priced models, Buick offers eight other distinguished body types, representing the ultimate in luxury, and priced from $1465 to $1995, f. o. b. factory.

Run-Down

"ABOUT seven years ago, I was all run-down, worn-out and never felt good," says Mrs. Harry Cantrell, of Cape Girardeau, Mo. "A chair would be more welcome any time than my work.

"I was so tired when I would arise in the morning. Instead of being rested, I felt terrible.

"At last, mother told me to take Cardui, and I did. After the first bottle, I could tell a difference, and when I had taken five bottles the tired feeling was all gone. I felt like a different person, thanks to Cardui. I hope that other mothers will try Cardui. I have been wonderfully benefited by it."

SUNDAY SCHOOL LESSON

Lesson for November 10

WORLD PEACE THROUGH MUTUAL UNDERSTANDING

LESSON TEXT—Isa. 2:2-4, 11:6-10, 19:23-25, Acts 17:22-28, John 4:20, 21.

GOLDEN TEXT—They shall not hurt nor destroy in all my holy mountain, for the earth shall be full of the knowledge of the Lord as the waters cover the sea.

PRIMARY TOPIC—Friends the World Around.

JUNIOR TOPIC—Friends the World Around.

INTERMEDIATE AND SENIOR TOPIC—Working for World Peace.

YOUNG PEOPLE AND ADULT TOPIC—Our Share in Promoting International Understanding.

The lesson title is somewhat misleading. It is not world peace through mutual understanding, but through the actual coming of Jesus Christ, the Messiah, and the establishment of His kingdom on the earth.

I. Messiah's Kingdom Established Isa. 2:2-4).

By "mountain" in the Scriptures is meant a kingdom (Dan. 2:35, Rev. 13:1, 17:9-11).

1. Its position (v. 2).

It shall be in a place of supremacy. The kingdoms of the world shall then become the kingdom of Christ (Rev. 11-15).

2. The restored kingdom the teacher of the gentiles (v. 3).

God called Israel and made her the priestly nation in order that she might make known His name among other nations. Now, after many centuries of apostasy and rebellion, the chosen nation comes into its own. God's favor will be so ontstanding as to gain the attention of the whole world and cause the people to come up to hear the law of God.

3. The Divine Judge (v. 4).

The problems of the world which are so beyond man's capacity to solve will be adjudicated by the One who is all wise, and He shall rebuke many people. Because of this rebuke, they shall convert their implements of war into implements of husbandry, and shall learn war no more.

II. Description of His Reign (Isa. 11:6-10).

Universal peace between men and animals will prevail. In this picture each animal is coupled with that one upon which it naturally preys.

1. The wolf shall dwell with the lamb.
2. The leopard shall lie down with the kid.
3. The calf, the young lion and the fatling shall lie down together.
4. A little child shall lead them.
5. The cow and bear shall feed together.
6. The lion shall eat straw like the ox.
7. The suckling child shall play upon the hole of the asp.
8. The weaned child shall put its hand upon the den of the cockatrice.

The coming of Christ shall have a regenerating effect upon the whole creation. The only peace for the earth will be when Jesus Christ, the Prince of Peace, shall reign.

III. Peace Among the Nations by Means of the Knowledge of God (Acts 17:22-28).

The way to bring peace among the nations is to make God known. Paul began his discourse on Mars' hill by referring to one of their inscriptions, "To the unknown God," and declared that it was his purpose to make known this God unto them. By using this as his point of contact he made declarations about God and man which if recognized will tend to the unity of the nations.

1. Declaration concerning God (vv. 24, 25).

(1) The Creator of the universe. (2) Lord of heaven and earth. Being essentially spirit. He demands heart worship, and being Creator He cannot be confined to an earthly temple. (3) His active providence. He declared that in Him we live and move and have our being.

2. Declaration concerning man (vv. 26-31).

(1) We are the offspring of God (v. 28). (2) Nations have their place by God's purpose. (3) Men should seek God. The truth thus declared concerning God and man, if received, will remove national and racial barriers. The belief that God has made of one blood all the nations of the earth will do much to take away racial antipathy.

IV. The Basis of National Union (John 4:20, 21).

The coming union of nations will not be in forms or symbols, but in spirit. The union of the race must be around Jesus Christ. Being united to Him as head, men are brought into fellowship with God. The Christian church is the supreme unifier of nations (Eph. 4:3-6). If we would hasten world peace, let us with diligence and enthusiasm endeavor to induce men to give allegiance to Jesus Christ.

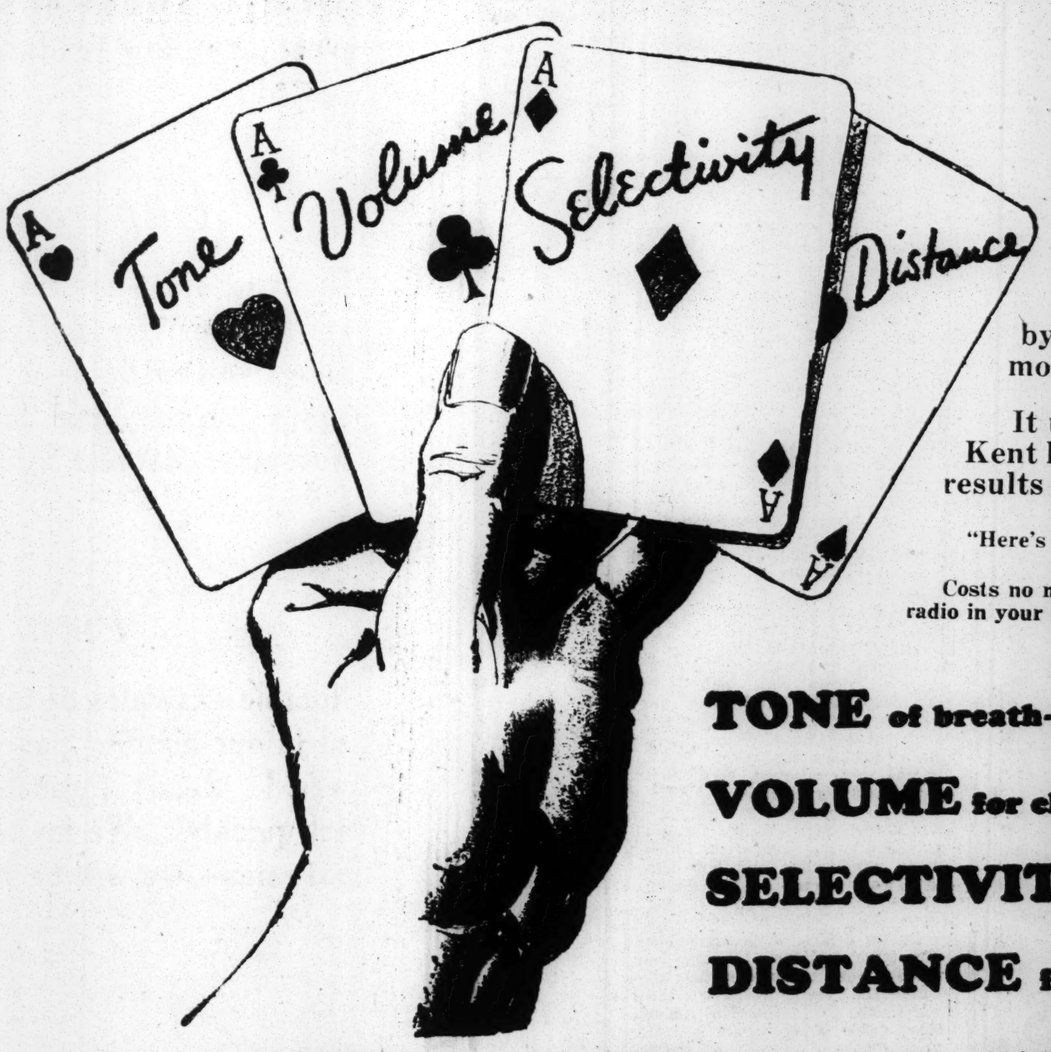
SCREEN-GRID

RADIO

You hold the four aces of radio when you get the Atwater Kent Screen-Grid



"When I sell you this Atwater Kent I know that you won't come back later and ask me why I didn't sell you the latest in radio."

That's what Atwater Kent dealers everywhere are saying.

Screen-Grid Radio, as perfected by Atwater Kent, has a hundred times more power in its Screen-Grid tubes.

It uses the new tubes as only Atwater Kent has found out how to use them. Gives results you can't get with old-fashioned tubes

"Here's what we are all trying for," say radio engineers.

Costs no more than yesterday's radio! Puts all four aces of radio in your hand at once.

TONE of breath-catching beauty!

VOLUME for chimney-corner or mass-meeting!

SELECTIVITY of needle-point fineness!

DISTANCE for new log-card records!

Now! The Radio that Made Screen-Grid Famous!

No wonder they're flocking to it! It's what everyone has always wanted! The finest set there is—results you can't get with old-style tubes—backed by a reputation established in almost 3,000,000 homes—made with thousandth-of-an-inch precision in the world's largest and finest radio factory.

And cabinets! There are many so that you can be free to select the style of your radio furniture as you do the other beautiful things in your home.

This is how Screen-Grid works —as Atwater Kent uses it!

Screen-Grid overcomes an old problem in radio amplification. With the old type of tubes, power had to be cut down to prevent feed-back and oscillation. The fourth element—the "Screen"—in the Screen-Grid tube prevents this feed-back so that the new tubes, as Atwater Kent uses them, develop ten times as much amplification per tube—and a hundred times the power! WITH NO HUM!

No wonder old-fashioned tubes are no longer wanted! Watch the others come to Screen-Grid tubes! But meanwhile enjoy the Atwater Kent!

Hallowe'en Circus.

The young people's department of the Baptist Sunday School and the senior B. Y. P. U. enjoyed a Hallowe'en party last Friday night at the Masonic Temple. The entertainment was in the form of a circus. The basement of the temple was decorated with all colored balloons suspended from the ceiling and from all the posts.

One part of the room was filled with the side shows. Among these were Billie Chapuis as the snake charmer and George Chapuis as million dollar beauty. A swimming match was conducted by Mr. Leon Hirsch. Mary Ollie Carpenter represented the "wild man from Borno" and many other impersonations were given.

Much amusement was afforded at the booth where balls were thrown at a rag doll. Dit Perry gave a performance as tight rope walker and Mr. J. C. Hathorn's class of boys furnished music during the evening on tin pans assisted by Miss Christine Fields at the piano. Another musical feature that was enjoyed was a hobo song by Lloyd Lott.

Many amusing contests and races took place with mimicry and pantomime making them vastly interesting. Peanuts, popcorn, apples and cold drinks were served during the entertainment by Bertine Lott, as head of the refreshment committee, and her assistants. The entertainment was sponsored by Mrs. W. E. Farr and Miss Aleene Perkins.

Mrs. Tims Showered.

Mrs. B. C. Tims was pleasantly surprised last Thursday afternoon with a lovely linen shower given by Mrs. Robert Sharp, Mrs. A. J. McCaslin, Mrs. F. A. Stacy, Mrs. Ben Graham and Mrs. W. B. Starks.

The party was given at the home of Mrs. Sharp on Main Street.

Here Hallowe'en decorations were everywhere in evidence. Beautiful yellow chrysanthemums added to the atmosphere. Virginia Lee Horton, dressed as an extremely weird witch, greeted the guests as they entered.

Interesting contests were held, among them one in which the guests wrote individual ideas on how to feed and care for boarders. After these were finished the witch told the fortune of each guest. Upon reaching Mrs. Tims she related that she was straight from the moon and had things to show her in the next room. Upon opening the dining room door the lovely gifts of linen were discovered.

Also in one corner was a witch on a broom near a witch's pot. Upon examination, the witch's pot was found to contain other gifts.

Delicious sandwiches, rock cakes and tea were served.

Tea for Visitors.

One of the loveliest affairs of the season was the beautiful tea given Tuesday afternoon in honor of Mrs. H. H. Council and Mrs. John L. Smith, of Jackson by Mrs. R. C. Trusty from three to five o'clock.

The attractiveness of her home was further enhanced by an artistic arrangement throughout of gorgeous chrysanthemums. In the entrance hall where lavender ones were used in profusion, Miss Lida Coffman, charmingly attired in a gown of figured chiffon, Mrs. W. B. Hoffa in tea rose chiffon, Mrs. C. H. Calhoon, in green velvet, and Mrs. A. M. Carothers, in eggshell chiffon, heavily beaded in crystals, graciously greeted the guests.

The receiving line was formed in the living room against a background of beautiful lavender chrysanthemums. Mrs. Trusty was lovely in a graceful flowered chiffon with a shoulder corsage of radiance roses and valley lilies. Mrs. Smith wore a handsome model of brown velvet combined with bisque chiffon and Mrs. Council, a becoming gown of henna lace and chiffon.

Receiving with them were: Mrs. Homer Spraggins, of Minter City, who was attractively gowned in blue chiffon, Mrs. Roland Jones, in black point d'esprit, Mrs. Dudley Crawford, in yellow lace, Mrs. R. L. McLeod, in lavender taffeta, and Miss Adele Hoffa, wearing a gown of aster chiffon.

Mrs. F. S. Hill, handsome in a model of gold lace and chiffon and Mrs. E. L. Bass, becomingly dressed in red chiffon, showed the guests into the dining room.

An exquisite Florentine cloth covered the dining room table.

An epergne holding bronze chrysanthemums was used as a centerpiece and was surrounded by four lighted yellow tapers. The buffet was especially artistic with a pretty arrangement of the chrysanthemums and yellow candles burning in silver candelabra.

Mrs. B. C. Adams, wearing a gown of lavender chiffon and a shoulder bouquet of sunburst roses and lilies of the valley, poured tea. Miss Elizabeth Jones, who was charming in a model of blue moire, served delicious salad.

The two attractive young daughters of the home, Misses Agnes and Margaret Trusty, were daintily gowned in yellow moire and flowered chiffon. They and Mrs. S. H. Garner and Mrs. Spivey Kent assisted in serving the other delightful refreshments.

Later a delicious supper served buffet style was enjoyed by the receiving line and all those who assisted in the affair.

Church Entertainment.

On last Thursday night the Presbyterians of the vicinity enjoyed a delightful entertainment at their church in Bethel. The church was beautifully decorated for the occasion with autumn leaves.

The program for the evening was in charge of Mrs. Bettie Lee Cox and she was ably assisted by Mrs. Robert McLeod and Mrs. Hayden Bloodworth. Many interesting games and contests added interest to the evening's entertainment and Hallowe'en refreshments were served.

Hallowe'en Party.

On Thursday evening Miss Joyce Matthews entertained a number of her friends at a delightful Hallowe'en party.

The guests, who were masked and costumed, were met at the door by a very cordial ghost who later proved to be Mrs. R. F. Matthews, the mother of the attractive young hostess.

Mrs. L. C. Proby, disguised as a witch and seated in the midst of autumn leaves and weeds, foretold the future of all those present.

"Black magic" was one of the enjoyable games and throwing peanuts into the mouth of a goblin which had been made from a large pumpkin was another. In this the guests had been divided into two groups, the blue eyes and the brown eyes, and the latter group won.

Later they all bobbed for apples, and each apple had a number calling for a certain stunt.

Perhaps the greatest excitement of the evening was furnished by the last game.

The lights were extinguished and the guests seated in a circle. Slick, slimy, spooky things were passed from one to the other and although the articles were in reality quite harmless, unknown and in the dark, they seemed horrible beyond description, and shrieks and screams filled the room.

Ice cream with marshmallow ghosts and cookies, with faces of goblins, were served. Mr. and Mrs. Matthews were kindly assisted in entertaining by Mr. and Mrs. Proby.

The guest list included: Annie Anderson, Elizabeth Patterson, Frances Farr, Iota Lott, Bettie Mae Sherwood, Mary Katherine Kettle, Susan Proby, Thelma Thompson, Emma Carl Juchheim, Peggy Spain, Margaret Boosey, Miriam Boushe, Nina Grace Cunningham, Kathryn White, Cleon Proby, C. W. Thompson, Jr., Jeff Whitaker, James Prose, Durrow Horn, Bertwell Johnston, Donald Lockett and Frank Matthews, Jr.

Donald Lockett Has Party.

One of the very attractive Hallowe'en parties was that given last Friday evening by Donald Lockett at the home of his parents, Mr. and Mrs. C. E. Lockett.

Yellow and black crepe paper streamers with yellow goblins and black cats created a very weird and eerie scene.

The guests were greeted at the door by two very hospitable ghosts who made them go through a barrel before being admitted to the party.

Doughnuts were strung about the room and much amusement was affored by the various attempts at biting them. Bobbing for apples and "pinning the tail on the cat" were also hilariously enjoyed.

Hallowe'en hats were given each of the guests. Fortunes tied to animal crackers which had previously been hidden were hunted. A vegetable tournament was also especially enjoyed.

Delicious sandwiches and cold drinks were served at the close of the evening's fun.

Mrs. Lockett was assisted in entertaining and serving her son's guests by Misses Anita Poe Gann and Mary Lou Diggs.

Those present were: Ben Adams, Jr., Cleon Proby, C. W. Thompson, Jr., Donald Ross, Ralph Semmes, Jr., Charles Williams, Erle Johnston, Bertwell Johnston, George Baker, George Darby, Durrow Horn, James Prose and Paul Lockett.

Rhythm Class in Program.

Mrs. Malcolm Lawrence's school of rhythm presented a clever program on last Friday night at the home of Mrs. Ralph Semmes who was accompanist for all the dances. The house was decorated with autumn flowers. These with the unusual lighting effects used made a charming scene for the dancers. The young girls of the class dressed in Grecian costumes formed a background for each performance.

Owing to the fact that it was Hallowe'en and a rainy night only half of the class was present. Parts of the absent ones were given by those present. Miss Edith Penn presenting a brownie dance and Miss Lucy Jane Harrison giving the story of one of the pantomimes.

The program was thoroughly enjoyed by the mothers of the participants, and enthusiastic praise was expressed over the marked advance made in the two months that Mrs. Lawrence has been conducting the school. Mrs. Lawrence plans to present the class in a public program soon.

The following girls took part in the program: Annie Marie Neely, Lucy Jane Harrison, Katherine Clanton, Louise Avent, Jean Johnson, Edith Penn, Mary Upshaw Jones, Bay Grant, Isabel Bailey and Jewell Clanton.

Miss Kimzey Entertains.

On last Friday night Miss Lorene Kimzey entertained at her home with a Hallowe'en party. The house was attractively decorated with pumpkins and other Hallowe'en reminders. The costumes of the hostess and guests and the weird games played carried out the mysterious and fascinating atmosphere of the celebration.

About nine o'clock the group of girls was joined by some of the boys and dancing was enjoyed for the remainder of the evening.

Those enjoying this merry party were Misses Garner Brannon and her visitor from Coffeeville, Martha Oliver, Grace Kirk, Grace Cowles Horton, Eloise and Elizabeth Wilkins, Mary Elsie Campbell, Lillian Woodson, Myrtle Cunningham, Frances Honeycutt, Cornelia Mohler, Anna Lucile and Blanche Hornor, Jewell Clanton, Mary and Billy Finney, Mary Alice and Emma Louise Kettle and Lucile Stevens.

Adults Contract Children's Diseases

Adults can, and do, contract many children's diseases. And, usually, they suffer from them much more than children do. For instance, many adults contract worms, an ailment usually associated with children. Sometimes they suffer intensely and take expensive medical treatments, without realizing that worms are the cause of their troubles. Yet, the symptoms are the same as in children, loss of appetite and weight, grinding the teeth and restless sleep, itching of the nose and anus, and abdominal pains. And, the same medicine that surely and harmlessly expels round and pin worms from children will do the same for adults—White's Cream Vermifuge, which you can get at CORNER DRUG STORE.

I wouldn't be without it—not if it cost twice as much

When Don and I first started keeping house we felt that we couldn't afford a telephone. There was the furniture to buy—linens—and a dozen and one little things that cost no end of money. Then one day after we had been married a couple of months I was left all alone. I expected Don for dinner but he didn't come—seven o'clock came but not Don—eight o'clock and still no word. I was frantic. Usually when Don was late he called Mrs. Brown next door or sent word by a friend who lived close by. After I felt that I couldn't wait any longer I ran to Mrs. Brown's to call Don's office, but Mrs. Brown wasn't there. Then I couldn't understand why I hadn't heard from Don through our friend.

If Don hadn't come when he did I believe that I would have gone crazy. He had tried to call Mrs. Brown but no one had answered, and our kind messenger friend was out of town. That incident cured us. We ordered a telephone the next day—my dear, it was a pleasant surprise to learn how reasonable the cost really is. But if a telephone cost twice as much I wouldn't do without it—not for a single day.

Why take a chance on any such thing happening to you when a telephone costs so little? Call the business office, or give your order to any one of the company's employees, and a telephone will be installed immediately.

TAX BOOKS NOW OPEN

To the Taxpayers of Grenada County:-

The Board of Supervisors has fixed the levy for taxes for the fiscal year 1929-1930 and this is to advise you that the sheriff's office is ready to proceed with the collection of taxes.

It is always advisable to pay your taxes as early as possible and a great portion of Grenada County taxpayers have always done so. This serves to eliminate congestion in the sheriff's office during the last few days of tax paying time and prevents the possibility of your not being waited on within the time limit prescribed by law.

The statutes provide for the assessment of 10 per cent damages on all taxes unpaid before the first of February. The commutation road tax is delinquent after Dec. 15th and the law requires that the names of all delinquents on this tax be turned over to the justices of the peace for collection which, of course, means the adding of damages. By paying your taxes now you will avoid all these unpleasant features and will confer a great favor on this office.

Respectfully,
FRED S. NASON, Sheriff

MILLIONS OF POUNDS USED BY OUR GOVERNMENT

Banish the "Mortgage Bugaboo"

In the old "10-20-30" melodrama days, the village squire was ever ready to appear on the scene and threaten to foreclose the mortgage on the widow's home. Unfortunately, those days are not "gone forever."

Why not banish the "mortgage bugaboo" as far as *your* family is concerned? Why not leave them what they have a right to expect: the home or the farm free from debt?

A Jefferson Standard "Keeping the Home Policy" will lift both the mortgage and its shadow!

COTTON—WHAT IS IT?

The scientist trying to learn of other than the present usages for cotton, asked the question: What is cotton? An unknown author made the following answer:

"Cotton is the over-coat of a seed that is planted and grown in the Southern States to keep the producer broke and the buyer crazy. The fiber varies in color and length, and the man who can guess nearest the length of the fiber is called a cotton man by the public, a thief by the farmer, a fool by the banker, a poor business man by his creditors. The price of cotton is determined in New York and goes up when you have sold and down when you have bought."

A buyer working for a group of mills was sent to New York to watch the Cotton Market, and after a few days' deliberation he wired his firm to this effect:

"Some think it will go up and some think it will go down—I do too—Whatever you do will be wrong—act at once."

"Cotton is planted in the spring, mortgaged in the summer and left in the field in the winter. You can and you can't; you will and you won't—you will be damned if you do and will be damned if you don't."—Selected.

BETTER SETTLE

Ashcraft—The weather seems unsettled.

Crandall—Yeah; they must have forgotten to pay the weather man's salary.

SIGN OF AGE

Doctor—Your father seems hale and hearty at the age of 104.

Column About Colored People of Grenada County

Items by J. H. Phillips

The Old Folks Home Association met last Sunday at 2 p. m. (The first Sunday in each month being the regular time). Out of the large membership there were but few present. The contributions are much better than the attendance. While the finances are the most essential thing the attendance, to some degree, would add to stimulation of interest and would be a medium through which others might see the necessity of enlisting for its support. The penny system in the school, originated by Prof. Rogers, is growing in appreciative interest. The children, in a small, but substantial way are getting the spirit of charity. The contributions for this month are as follows: Public school $5.27; Sweet Home Auxiliary $3.00; E. D. Brooks $4.00; Dr. W. O'Neal 50c; Jeff Blank 50c; Cora Blank 50c; J. C. Chamberlain $3.00; Total $16.77.

The P. T. A. among our people is becoming a fixture. At the beginning of the organization it was a hard pull to get our people interested in the project, but by holding on they began to see a way out. The meeting last Monday evening at the public school building gave renewed hope for its future success. Ten ladies got busy and raised nearly $30.00. Nine little girls of the 3rd grade, having been recently organized by Mrs. Rogers, furnished an entertaining program of 30 minutes duration and these little tots did themselves credit on their presentation.

Mrs. Dr. O'Neal addressed the Parent Teachers Association and what she had to say was both inspiring and instructive.

Mack Dandridge, one of the leading laborers at the Gayoso Lumber Mill, met with a serious accident last Wednesday which caused the loss of a thumb and two fingers from his right hand. His place of work being one that required watchful care at all times caught him off his guard. He had wiped and greased his saw and a look in another direction resulted in the mishap. He occupied a very responsible position and his employers regarded him as an asset to the operation of the mill. Mr. Dandridge is a fine citizen and churchman. If no complications set up he will soon be on the mend. His many friends express deep sympathy and interest in his troubles.

Rev. A. Nabors, pastor of Belle Flower Baptist Church, left Tuesday for Carroll County, his early environment, for a little recreation and feeding grounds. He says he always knows where to go when the pastures get bare and feeding is scarce. He didn't carrying any company for from his looks he can use all of it for himself. When the vacuum in his anatomy is full we hope he will return much improved.

Aunt Margaret Williams, an old citizen of this community, passed away last Sunday. She had been ill only a short time. She was the mother of Mrs. Luburta Weathers and lived with her at the time of her death.

William Weathers, son of Matthew W. Weathers, was down from Memphis this week to be present at his grandmother's funeral (Mrs. Margaret Williams). He is doing well in the Bluff City.

NEGRO DIES FROM WOUND INFLICTED BY HIS WIFE

Ed Caldwell, negro fireman employed by the Grenada Hardwood Co., died Tuesday morning from complications caused by a bullet wound in his thigh inflicted by his wife, Lucy Caldwell, last Thursday morning. The negress is in jail, having been unable to make $1000 bond after a preliminary hearing before Mayor W. S. P. Doty Wednesday.

Exact details of the shooting are not known but it is said that the two were having a heated argument over financial matters. It is reported that the negro, before his death, requested that his wife be freed.

WHAT IS A FRIEND?

What is a friend? I will tell you. It is a person with whom you dare to be yourself. Your soul can go naked with him. He seems to ask of you to put on nothing, only to be what you are. He does not want you to be better or worse. When you are with him, you feel as a prisoner feels who has been declared innocent. You do not have to be on your guard.

You can say what you think, so long as it is genuinely you. He understands those contradictions in your nature that lead others to misjudge you. With him you breathe free. You can take off your coat and loosen your collar. You can avow your little vanities and envies, and hates and vicious sparks, your meanness and absurdities, and in opening them up to him are lost, dissolved on the white ocean of his loyalty. He understands. You do not have to be careful.

You can abuse him, neglect him, tolerate him. It makes no matter. He likes you. He is like fire, that purifies all you say. He is like wine, that warms you to the bone. He understands. You can weep with him, laugh with him, pray with him. Through and underneath it all he sees, knows, and loves you. A friend, I repeat, is one with whom you dare to be yourself.—Unknown.

TRUTHFUL WRITEUP OF CAROLINA WEDDING

This is the way a North Carolina editor handled the write-up of a wedding in his home community:

Popular Young Couple Married This Week.

Mr. Robert Zelby and Miss Tessia Nells were married at the home of the bride's parents, Mr. and Mrs. P. D. Nells, Rev. M. L. Gassoway officiating.

The groom is a popular young bum who hasn't done a lick of work since he got shipped in the middle of his junior year at college. He manages to dress well and keep a supply of spending money, because his dad is a soft-hearted old fool who takes up his bad checks instead of letting him go to jail where he belongs.

The bride is a skinny, fast little idiot about 35 years old, who has been kissed and handled by every boy in town since she was twelve years old. She paints like a Sioux Indian, sucks cigarettes in secret, and drinks mean corn liquor when she is out riding in her dad's car at night. She doesn't know how to cook, sew or keep house.

The house was newly plastered for the wedding and the exterior newly painted, thus appropriately carrying out the decorative scheme for the groom was newly plastered and the bride newly painted.

The groom wore a rented dinner suit over athletic underwear of imitation silk. His pants were held up by a pair of pale green suspenders. His number eight patent leather shoes matched his state in tightness and harmonized greatly with the axle grease polish of his hair. In addition to his jag, he carried a pocket knife, a bunch of keys, a dun for the ring and his usual look of imbecility.

The bride wore some kind of a white thing that left most of her legs sticking out at one end of her and her bony upper end sticking out at the other.

The young people will make their home with the bride's parents—which means they will sponge on the old man until he dies and then she will take in washing.

Postscript:—This may be the last issue of the Tribune, but my life ambition has been to write up one wedding and tell the unvarnished truth. Now, that it is done, death can have no sting.

NO LIE

Boss: "See here! You told my office girl that you wanted to see me on a matter of life and death!"

Salesman: "I do, sir, I want to sell you some life insurance."

—Paul Gunder

BETTER HELP IN HOMES

Housewives are to a great extent solving the help problem by the embployment of electrical servants that are never late on the job, never ask for holidays nor demand the use of the family car.

The amazing increase of electrical equipment in American homes is disclosed by the household research bureau of the makers of ABC electric washers, which finds that at the end of 1928 this equipment included 17,700,000 electric irons, 7,700,000 vacuum cleaners, 1,223,000 electric refrigerators and 5,735,000 electric washers.

There are nearly twenty million wired homes in the United States, where the field of usefulness of electrical energy is being more rapidly developed than in any other country.

American women have discovered that the employment of labor-saving devices in the home is a means of conserving their energy, health and beauty, besides making for true economy. These devices are banishing much of the drudgery which was formerly inseparable from housekeeping.

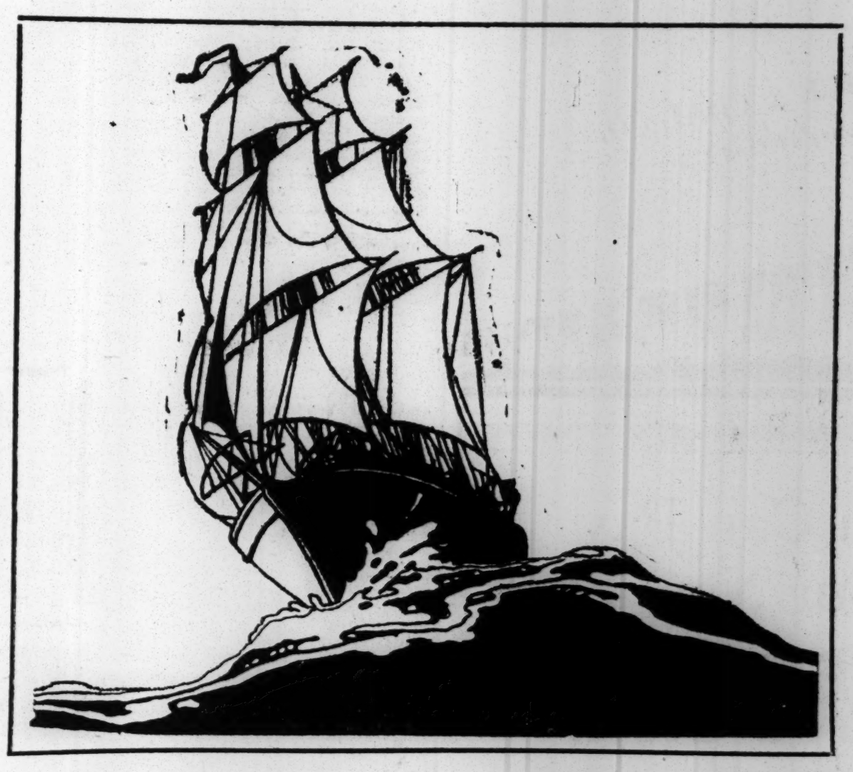
The Ship never returned

---that never left port



How Can You Expect Your Ship to Come IN ---If You Never Send It OUT?

Hundreds of customers of Mississippi Power & Light Co. and other local people have their ships coming in every three months—every February 1, May 1, August 1 and November 1, they get money by mail from the Company. But these folks first sent their ships OUT—they invested in the Company's Preferred Stock. You've heard that "money works," that "money makes money." This is how it's done—by INVESTING. If you invest in only 25 shares of this stock you will be entitled to receive $37.50 every three months from the Mississippi Power & Light Company.

Do not confuse "investing" with "speculating". Lots of folks don't realize the difference. "Speculating" means taking chances; running risks; subjecting your hard-earned dollars to perils and hazards—what many people call "stock gambling." INVESTING does not consist of plunging or blindly taking chances. Investing means putting your money to work in some firmly established business where your dollars will be SAFE and where they will steadily and surely **earn more dollars** for you.

This stock is not a speculation or get-rich-quick scheme but a SAFE INVESTMENT. There can be no reasonable doubt of it in your mind when you consider:

1—The Company Supplies Necessities—GAS and ELECTRICITY. Even in hard times, when other plants close down, the electric plants and gas plants must be kept running.

2—Company has Valuable Properties. The company is not in the promotional stages. There's no waiting for factories to be built or mines to be dug or wells drilled. The company's plants and other properties are worth millions of dollars.

3—Demand for its Product. Electricity and gas are always in great demand not only for lighting purposes but for the operation of other industries—and the demand is constantly increasing.

4.—Diversity. The company does not depend on any one class of business or people for its success.

5—Good Management. The management of this company has demonstrated its ability and efficiency.
